Mobile Barriers

Inderlec Medical Systems does a complete range of mobile barriers. From standard 1000mm wide 1500mm high with 2.2mm Lead Equ through to 15mm thick custom barriers. We can find a solution to match any requirement you may have.

1000mm Wide x 1500mm High Barrier with 2.2mm Lead No Window

1000mm Wide x 1500mm High Barrier with 2.2mm Lead with Lead Glass Window 300 x 300.

Custom Mobile Barrier

Lead Gloves

A range of lead impregnated gloves are available in 0.2 and 0.5mm equivalences. A range of sizes are available.

Lead Glasses

The Wraparounds are for people with unassisted vision, while the Fitovers are a new concept - designed to be worn over prescription glasses.

Both models offer 0.5mm protection and are available with beaded strap to ensure the glasses are securely fixed.

The Fitovers avoid the expense of having to change x-ray glasses each time your prescription changes, plus - they can be shared by many.

Wrap Around Lead Glasses 0.5mm Lead

Fitover Lead Glasses 0.5mm Lead

Lead Aprons

'Light weight' or 'Standard weight' - Save up to 25% in weight while obtaining the same level of protection.
