

Ventilation Accessories

Cadema Ventilation Kits

Micro vent disposables to suit Cadema ventilation units. The economical alternative while maintaining the high standards you would expect from an Inderlec product.

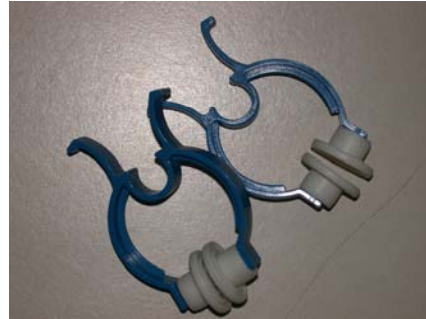

Cadema Pots

Cadema pots have always been an expensive item for ventilation studies, however Inderlec has a stock of quality second hand pots that are provided free of charge whilst ever our consumables are being used.

An ideal solution for new practices who want to gauge the number of ventilation studies they are doing before investing in more expensive options

Nose Clips

Silicon tipped nose clips suitable for almost all ventilation applications.

Clips come in bags of 100 and are high quality.

Ultravent Kits

Inderlec keep a full compliment of Ultravent ventilation kits in stock.
